appellation

Sud de France - Pays d'Oc - Indication Géographique Protégée

Winding along the Mediterranean Sea, the Pays d'Oc boasts 125 miles of beaches and vineyards bathed by the sun. The region is comprised of four departments in the Languedoc-Roussillon: Pyrénées-Orientales, Aude, Hérault and Gard. A rich combination of steep slopes, hilly peaks and vineyards dotted with wild herbs, the Pays d'Oc is home to very diverse soils: sandy, limestone, schist, clay, and gravel. Grenache and Cinsault thrive in the windswept soils and Mediterranean climate.
